The clean and smooth lines outline its shape, the brass material provides its solid frame and the flexible zinc alloy handle.

A modern, minimalist kitchen faucet with a high, curved spout and a single-lever handle, set against a background of warm, abstract geometric shapes. The faucet is made of polished brass and is mounted on a white countertop. The background features large, overlapping triangles in shades of beige and cream, creating a warm and contemporary aesthetic.

Under the refracted light, it creates small rainbow-like reflections, resembling floating lakes in the north. Like magical elves, they bring a mysterious and wonderful atmosphere to the bathroom.

BATHTUB

Simple, elegant, and deeply artistic in design.

After a busy day, immersed yourself in the bathtub. Feel the water and the bubbles collide and blend, as the misty water nourishes and moisturizes your skin. Unconsciously, your body and mind can be soothed and relaxed.

Vogue

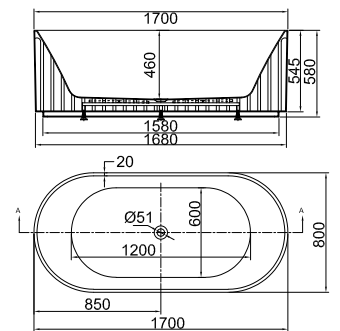

Like the faint light glimmering
on the sea, delicate and serene.
