COMPANY PROFILE

Kareema Industry, Inc , the most trustworthy partner you can find in buiding material industry in China. We know clearly that only by helping our customers to achieve success in controlling the cost and occupying the relative market can we achieve success in this samefield.

Motivatedby that basic belief,Kareema set out to work.By importing the most advanced facilities,using only the top grade natural materials,and setting up a strict quality control system,we have made our products equality to better performance and stability.Our experienced design and engineering team is second to none in making superb fashionable styles and supplying help in your own design.And we never reduce our cost by sacrificing the quality.Actually we reduce the cost by centralized production and effective [ogistic management.We fhave set up a strong relationship with competitive [ogistic company because of our big exporting quantity.

With the quality products,competitive prices,and professional stafs dedicated to prompt services,Yrekalon has the confidence to assure your full satisfaction.When it comes to customer support,on-time delivery,and new products output,Kareema is an ind ustry leader.Due to years ofeffort,rekalon has made itsefthe fastest growing and the most professional company in China.Now as one of the top4 buifding material suppliers,we are exporting more than 600 containers per month.

For Kareema however,producing buifdting materials is more than a business:it's a passion to be the best.Let us know how we can hef; it would be our pleasure to work with you on your ideas and projects.

INTRODUCTION (Рекомендация)

1.Forestry

In the year of 2007,we invested 200 million RMB (equally 26 million on USD)to purchase 670 million sqm forestry as its raw material base in Hubei Province.Now this forest has becamethe main raw material source of ourwood products.

2.Raw Material

Regularly import different wood as per customer's requirements from Sweden,Russia,Canada and Germany.E.g.pinus pine,redpine,beech,spruce,etc.

3.Carbonization Oven Room

Three-in-one type oven house,fast wood drying, prevent crack or bend door due to understandard wood enter next production process.

4-5.Advanced equipment

Taking an area of 3350 square meters,our plantis composed of advanced and automatic machinery to ensure a precise and efficient production.With production capacity of 500 to 700 pcs of wood doors per day,weprovidetimely delivery as per customer's project schedulewithout delay.

6.Dust-free Painting Room

700 square meters,closed dustlesstype,all time automatic paint spray.

7.Warehouse

Own a warehouse of8000 square meters for raw materials and ready goods.On average 8 to 15 containers are loaded in our warehouse and leave for customer's job site.
