KAREEMA Stone Supply Chain

Materials

The raw materials i.e. blocks are sourced from the original quarries.

As cost for blocks diverges according to sizes, we select the suitable blocks fit your project need and reduce your cost.

And checking of blocks becomes the first step of our quality control from the start.

Designing assistance

With our experienced designing team, you could complete an exact decoration solution from your basic ideas.

We could help for 3 D drawings, or provide designing reference pictures to show you how it looks at the beginning.

Production drawings are offered for free to enable the accurate fabrication.

Production lines

With advanced and high-tech equipments, i.e., gang saw for slabs, computer controlled laser cutting, water-jet cutting, full automatic polishing machine, etc., enable the high quality and efficiency of mass production. At the same time, your expectation for special designs is available and realized.

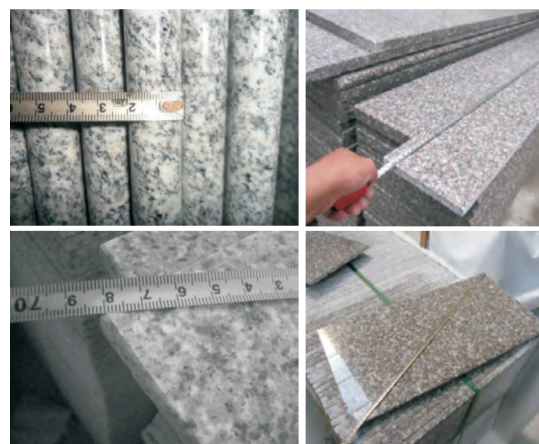

Quality Control

All goods will be inspected according to international quality standards before they're loaded & delivered.

Besides, our inspectors also monitor the whole loading process for goods at the port yard to secure the last procedure.

At the same time, you'll receive our photos for mass production, packing, inspection and loading etc. to see the good quality and condition of your goods before you receive them on hand..

Packing

Carton box, foam box, fumigated strong wood crates, ply-wood crates, etc. are used to protect your goods on long distance transportation. We'll do smart marking on them for your recognition of the items to save your time and labor cost.

Besides, customized packing are also available to help your promotion of sales.

Delivery

Provide all required special documents like CIQ, CNCA, SONCAP, BESC etc. for your easy custom clearance.

With advantage of logistics, you can enjoy one-stop delivery from production to the destination port.

Keep you posted of the delivery status, remind your of the documents and time of goods picking up goods.

Installation Guide

Instruction for all products installation work is available if in need.

Besides, our engineers are available to go to your jobsite for face-to-face guide.

Working with Yekalon is easy

Really, you don't need to worry for any thing here.

All you need to do is just send us AutoCAD, select the material, then you can count on us.

We provide you one-stop solution for natural stone.
